Work experience

Front end developer for Wetale
From December 2024 to June 2025
Chop up a Figma mockup and code it to build a modern native application for iOS and Android by using endpoints of our Symfony API.

Communications officer for the mayor of Craponne-sur-Arzon
From October 2021 to June 2024
Creation of multi-platform communication materials for summer events. Content management for social media.

Camp counselor for Telligo and various organizations
Summers of 2021 and 2022
Over the course of two summers, I supervised and engaged with children between the ages of 11 and 17. I organized exciting large-scale games, interactive quizzes, and educational workshops focused on e-sports and video game development.

Facilitator of film debates for Unis-Cité
From October 2021 to June 2022
Working out of film debates with middle and high school students during their class hours. Setting up workshops to raise awareness of internet risks for people with disabilities. Creation of awareness sessions on art and harassment for young people of all ages.Working out of film debates with middle and high school students during their class hours.
